'MEDICINES IN SCHOOL POLICY'

Reviewed by the school and approved by FGB Spring Term 2017

The school is pleased to notify parents that a copy of its recently reviewed 'Medicines in School Policy' is available on the school's website.

We remind parents and carers please, to continue completing the official forms if medicine is to be administered to pupils during the school day - and to inform that medication for administering by the school **must** be professionally prescribed.

We are delighted our pupils continue to enjoy good attendance and are as happy and robust - for the most part - as they are, especially in the summer!

Kind regards

Mrs J A Williams, Headteacher
